To Her Royal Highness

AUGUSTA

Princess Dowager of Wales.

The Early Approbation which Your Royal Highness was pleased to express of these Tables of Chronology & History, did them the greatest Honour. They are now considerably improved by the addition of many Articles, as well as illustrated by concomitant Maps of those Countries where the Scenes of Action were the most interesting, dispersed in such a manner as to unite as near as possible those two essential Distributions of Time and Place, so as to give a joint View of the two great Eyes of History.

It is therefore with the hopes of their being still more worthy of your attention that I have presumed to lay them at your Royal Highness's Feet, in a more improved State than they were at their first Publication, to be sheltered under the Patronage of a Princess, whose great and Eminent Virtues have contributed so much to the lasting Glory and Happiness of this Age and Country.

They are therefore inscribed with the highest Sense of Gratitude Submission and Respect by

Your Royal Highness's

most obliged, most faithful and

most devoted humble Servant

John Blair.

THE

PREFACE.

HISTORY is at preſent ſo generally eſteemed, and its beſt Authors ſo much peruſed, that it is unneceſſary to ſay any thing of its Importance. For it opens, like a great Avenue, into ſo many of the Branches of Learning, and the different Provinces of Life, that every Man finds it uſeful, in that Part of Knowledge to which he may give the Preference.

And yet, while the Books of all Nations upon this Subject, enter into every Library, of which, indeed, they generally occupy the largeſt Diviſion; while they are become the private Amuſement of ſo many, as well as a prevailing Topic of Converſation, it is ſurpriſing that CHRONOLOGY ſhould have been hitherto ſo partially known, when it has ſo much higher Pretenſions, than that of a Siſter Art. For the Series of Time, according to its proper Periods, the Interval of Occurrences, and the Train and Coincidence of Events, muſt be drawn together into one Body, to make what is properly called, THE THREAD OF HISTORY; without which it is really nothing more than a Bundle of detached Fragments.

But indeed, this Neglect of Chronological Knowledge has ariſen from one of the vulgar Errors of the preſent Age, which has miſrepreſented the Nature of this Science, as if it were merely confined to *the intricate Points of uncertain Hiſtory*; whereas its Province is of a much larger Extent, and comprehends the whole Hiſtory of the World, according to the Diviſion of Kingdoms, as well as the Succeſſion of Ages; and is ſo much the more full, accurate, and uſeful, as the particular Ages and Centuries are the better known.

It is not, therefore, without good Reaſon, that Chronology, by way of Proverb, has been called THE EYE OF HISTORY; becauſe this Metaphor expreſſes better than any other, how it opens a Light upon the moſt dark and complicated Revolutions of Mankind.

And we ſhall be the more confirmed in our Opinion of the Neceſſity of this Branch of Science, if we find that the Generality of Readers acquire their hiſtorical Knowledge by ſuch unconnected Parcels as they are ſeldom able clearly to put together. And of this the following Articles may ſerve for an Example, as they contain the Subſtance of the ancient Greek and Roman Hiſtory, before the Birth of Chriſt; and every one may judge for himſelf, whether he has not peruſed many of them, in the common Method of reading, without any proper Attention to their chronological Order. Such as,

THE BEGINNINGS OF ANCIENT ROME, AND ITS REGAL GOVERNMENT;
THE HISTORY OF THE ELDER CYRUS;
THE EXPULSION OF THE ROMAN KINGS, AND THE FIRST ESTABLISHMENT OF THE CONSULAR GOVERNMENT;
THE PERSIAN INVASION OF GREECE, UNDER DARIUS, AND UNDER XERXES;
THE PELOPONNESIAN WAR;
THE EXPEDITION OF THE YOUNGER CYRUS, AND THE RETREAT OF THE TEN THOUSAND GREEKS;
THE EXPEDITION OF AGESILAUS;
THE VICTORIES OF EPAMINONDAS;
THE BATTLES OF PHILIP OF MACEDON;
THE CONQUESTS OF ALEXANDER;
THE QUARRELS OF HIS SUCCESSORS;
THE RISE OF THE ACHÆAN LEAGUE;
THE TWO PUNIC WARS;
THE CONQUEST OF LACEDEMON, BY THE MACEDONIANS AND ACHÆANS;
THE CONQUEST OF MACEDON, BY THE ROMANS;
THE DESTRUCTION OF CARTHAGE;
THE DESTRUCTION OF CORINTH;
THE NUMANTIAN WAR;
THE JUGURTHINE WAR;
THE MITHRIDATIC WAR;
THE CIVIL WAR, BETWIXT MARIUS AND SYLLA;
THE CATALINE CONSPIRACY;
THE I^st^ TRIUMVIRATE;
THE CIVIL WAR, BETWIXT CÆSAR AND POMPEY;
THE II^d^ TRIUMVIRATE;
THEIR WAR AGAINST BRUTUS AND CASSIUS;
THE WAR BETWIXT ANTONY AND AUGUSTUS.

Now all theſe, though they are curious in the Detail, and PLUTARCH has given us moſt of them with great Beauty of Deſcription, in the Lives of his different Heroes; yet they always appear, as if they were covered with a Cloud of Darkneſs, and make but an imperfect Impreſſion on the Memory, till the Lamp of Hiſtorical Chronology has enlightened them. For it is that, which fixes them, in their proper Order of Succeſſion; which fills up their different Intervals, according to the Series of Time; which gives the preciſe Month and Day of each Tranſaction; which accompanies them with other cotemporary Circumſtances; and which connects them altogether, with the Periods and eſtabliſhed Æras of Chronology.

This Order and Connection will appear ſtill the more neceſſary, if we conſider the Abſurdities of ſome Authors of Reputation, in Matters of this Sort.

Servius, upon Virgil's III^d Eclogue, v. 40 and 41.

In medio duo ſigna, Conon: & quis fuit alter,
Deſcripſit radio totum qui gentibus orbem?

has this remarkable Note, *Conon, Dux fuit, cujus nomen dicit, quia in omnium ore verſatur, nam philoſophi tacet.* And a little after, *ſignificat autem, aut Aratum, aut Ptolemæum, aut Eudoxum.*

Now the Conon, whom Virgil mentions, was not Conon the Athenian General, but Conon of Alexandria, the Aſtronomer; who had given the Name of *Coma Berenices*, to one of the Conſtellations, and was an intimate Friend of Archimedes, who is generally thought to be the other Aſtronomer whom Virgil had in his Eye; but when Servius ſuppos'd it might be Ptolemy, he gave us a ſtrange Contradiction in point of Time, for it may be ſhewn that Ptolemy the Mathematician, according to his own Obſervations, did not flouriſh till above 130 Years after Chriſt; and we know, that Virgil died 19 Years before the Chriſtian Æra; ſo that Ptolemy did not really make a Figure till about 150 Years after the Death of Virgil.

Accurſius, the famous Author of the Gloſſes on the Civil Law, who flouriſhed in the Beginning of the XIII^th Century, has obſerved in his Gloſs, *in legem* 5 D. *de fer.* "that our Saviour was not yet born, in the Days of "Ulpian the Lawyer;" though we know that Ulpian was Prime Miniſter to Alexander Severus, the Roman Emperor, and that he died in the Year 226 after Chriſt. And others, in their Notes *ad novellam* XLVIII. *c.* 1. had concluded, "that the Emperor Juſtinian lived before the Birth of Chriſt, becauſe no Mention is made of "the Chriſtian Æra, either in the Codex, or the Digeſt of the Law, publiſhed by that Emperor;" though the Publication of the Codex is chronologically fixed to have been on April 16th, 529 Years after the Birth of Chriſt[a].

After theſe few Examples, and indeed there are many ſuch, there will be little Reaſon to inſiſt any farther upon the Uſefulneſs of this Science, in Matters of Learning. And therefore it may be ſufficient, to recommend the famous Inſcription on the Portal of the Academies of Pythagoras and Plato, to be conſidered and imitated, for it has a very univerſal Application.

ΜΗΔΕΙΣ ΑΓΕΩΜΕΤΡΗΤΟΣ ΕΙΣΙΤΩ.

IF THOU ART IGNORANT OF GEOMETRY, PRESUME NOT TO ENTER HERE.

And the Propriety of this Excluſion is very well illuſtrated, by a Saying of Xenocrates, the Diſciple of Plato, as it is related by Diogenes Laertius in his Life: "For when one, unacquainted with the firſt Principles, "either of Harmony, of Geometry, or of Aſtronomy, had deſired to frequent his School of Philoſophy, he "made him this Anſwer:

"YOU MUST DEPART FROM THIS, FOR YOU HAVE NOT YET GOT THE HANDLES OF PHILOSOPHY."

Πρὸς δὲ τὸν, μήτε μυσικὴν, μήτε γεωμετρίαν, μήτε ασρονομίαν μεμαθηκότα, βελόμενον δὲ παρ' αὐτὸν φοιτᾶν, Πορεύου, ἔφη, λαβὰς γὰρ οὐκ ἔχεις φιλοσοφίας[b].

In like Manner therefore, on the Title Page of every Hiſtorian, there ought to be this Inſcription in Capitals:

ΜΗΔΕΙΣ ΑΧΡΟΝΟΛΟΓΟΣ ΕΙΣΙΤΩ,
ΛΑΒΑΣ ΓΑΡ ΟΥΚ ΕΧΕΙΣ ΙΣΤΟΡΙΑΣ.

"ENTER NOT HERE, IF THOU ART IGNORANT OF CHRONOLOGY, FOR THOU HAST NOT YET GOT THE HANDLES OF HISTORY."

Where, and about what Time, Chronology firſt roſe to be a regular Science, may be eaſily pointed out.

Polybius[c] is of Opinion, that Ephorus of Cumæ, the Hiſtorian, was the firſt who attempted it, under the Form of an Univerſal Hiſtory; and we know that he flouriſhed in the Days of Philip of Macedon, about 350 Years before Chriſt; but nothing ſatisfactory upon this Subject ſeems to have appeared till after the Days of his Son Alexander; and ſo late, indeed, as towards the Cloſe of the Reign of Ptolemy Philadelphus, about the Middle of the III^d Century before Chriſt: And the true Reaſon of it ſeems to be this, That before the Conqueſts of Alexander, the Greeks had very ſcanty Materials for ſuch a Work; as their Knowledge was confined to the Tranſactions of a narrow Tract of Country, and to the Annals of a ſhort Period of Time. For their Travellers could not eaſily import the Hiſtorical Memoirs of the Countries through which they paſſed; becauſe ſuch a Work would have required many Advantages of which they were ſeldom Maſters. Such as, a thorough Knowledge of the Language of the Country, a free Acceſs to all their principal Records,

[a] Brunquelli Hiſtoria Juris, Differt. Prelim. § XLII. [b] Diogenes Laertius, lib. IV. § 10. [c] Polybius, lib. V. § 33.

and a Perſeverance in ſuch Application for a Series of Years. Now, general Wars, among their fatal Calamities, often produce certain accidental good Conſequences, by the Opportunities they give to Numbers of obſerving the Situation, Nature, and Improvements of other Nations; by which the Progreſs and Circulation, both of Learning and of other uſeful Arts, has been the more eaſily propagated into different Countries.

Strabo tells us, "that the Greeks received great Advantages even in their Knowledge of Geography, from "the Conqueſts of Alexander; for by his Means they became more perfectly acquainted with the larger "Tracts of Aſia, and all the Northern Parts of Europe, to the River Iſter;" and he might have mentioned too the whole Extent of Egypt; ſo that, at one and the ſame Time, they came to the full Poſſeſſion of Babylon and Egypt, the two great Fountains of Ancient Learning. "The Romans," ſays he, "in like Manner, "opened the ſame Light over the Weſtern Parts of Europe, up to the River Elbe, which divided Germany "into two Parts; and they went beyond the Iſter even to the Tyra; and as for the Countries round the Lake "Mœotis, and the Sea-coaſt to Colchis, they were undiſcovered, till the Days of Mithridates, ſirnamed "Eupator, King of Pontus; and the Parthian Empire made Hyrcania, Bactria, and the Scythians that lived "beyond them, to be better known[d]."

We may therefore take it for granted, that no General Hiſtory could be properly compoſed, till the Geography of theſe Countries was ſufficiently known, in order to deſcribe the Strength of each particular Kingdom, the Number of its Inhabitants, the Progreſs of its Armies, or the Provinces that might be loſt or acquired, in its Quarrels with other Kingdoms. But whenever the Acceſs to all theſe Countries was laid open, by the Conqueſt of Alexander; when ſo many new Kingdoms were eſtabliſhed, under the Macedonian Government, into which the Citizens of all the Greek States were freely admitted; when it extended the Greek Tongue, as an univerſal Language, over Aſia and Egypt; it gave the moſt favourable Opportunity to ſeveral eminent Men to write the Hiſtories of different Nations. Berosus compiled the Hiſtory of Chaldæa, from the Records of Babylon; and Manetho that of Egypt, from the Records of Memphis, and of Thebes; and the Arundelian Marbles gave a complete Series of the Annals of Greece, from their earlieſt Times; all of which were compoſed in that Age, by cotemporary Writers. And when we add to this, that the great Library of Alexandria was firſt formed under Ptolemy Philadelphus, into which the Writings of all Nations were collected; we may ſafely conclude from ſo many united Particulars, that it was then, and not before, that Univerſal Chronology became a Science.

And the more narrowly we conſider the Situation of the World at this Time, we ſhall be the more fully convinced of this Opinion. For till there was a Collection of proper Materials brought together, ſuch as the Manuſcripts of all Nations muſt contain, it was impoſſible to ſeparate the Truth of Hiſtory from the Rubbiſh of Fable; becauſe Facts are only to be canvaſſed from a Multitude of Circumſtances, which combine together to give Light to each other, while the cotemporary Hiſtory of one Country correſponds to the cotemporary State of another.

And as a Library was neceſſary to furniſh the Materials for this Purpoſe, ſo we find, that the firſt great *Father of Chronology* was Eratosthenes, the Librarian of Alexandria, who had the Command of all that Treaſure of Learning. For the Poſſeſſion of ſuch a Multitude of Hiſtorical Memoirs both prompted and enabled him to determine the Dates of many diſtant Facts. And we are informed by Dionyſius of Halicarnaſſus[e], that in the Execution of this Work, he had laid down to himſelf certain *Chronological Canons*, which that great Critic declares, he found to be accurate and uncorrupted, having examined them, in a Treatiſe wrote purpoſely upon that Subject, though, to the great Misfortune of the Learned World, it is now loſt.

The Tables which are now publiſhed, are not built upon any new Syſtem of Chronology; for this is a Science which, of all others, admits the leaſt of any Innovations; though it has not eſcaped the faſhionable Diſtemper of the preſent Age, which multiplies new Theories and new Opinions upon every Branch of Learning. And indeed this Spirit of Novelty, which is rather the Childhood and Sport of Imagination, than the Maturity of Judgment, has become a more deſpotic Tyrant over the Underſtandings of Men, than all the Prejudices of Education put together. For though we may have juſtly rejected many of the Errors, or the Follies, of our Forefathers, yet theſe can never juſtify an Attack upon the good Senſe, the Learning, the Religion, or the Experience of paſt Ages; which have, and which always will outlive, both the Viſions of Enthuſiaſm, and the Perplexities of Metaphyſics.

The Ancient Chronology has been digeſted in the Tables according to the Hebrew Text, and agreeable to the Syſtem of Archbishop Ussher; though it is proper to obſerve, that we do not aſſume the earlier Dates of Years, as if they could be demonſtrated mathematically. For as we only prefer them, from their being more generally received than any other, amidſt a vaſt Uncertainty of no leſs than Three hundred different Opinions, about the exact Year of the Creation, we therefore chuſe to decline any Controverſy upon Points, where the Data are ſo few, and the Range of Hypotheſis ſo unlimited; where Authors boaſt of Demonſtrations, and yet give us nothing more than the Play of a prolific Imagination. And we may be the eaſier ſatisfied upon this Head, if we conſider, that neither Religion nor Hiſtory are fundamentally concerned in preciſely fixing the Times of ſuch remote Antiquity.

But when we deſcend into the ſucceeding Ages of the World, we hope the Periods that have been adopted in the Tables, and their collateral Events, will be found, in general, to be built upon the beſt Authorities, without being ſervilely copied from the Syſtem of any one particular Author.

It is unneceſſary to give a Detail of the Errors and Omiſſions of the other Tables of Chronology, by way of Apology for what are now publiſhed. For the Complaint againſt them is rather of a more general Nature, "That in them all there is either a Want of Clearneſs and Method in their Plan, or a Want of Mate-"rials in their Execution; that they are ſeldom found applicable to the different Books of Hiſtory, either "Ancient or Modern, which indeed ought to be their principal Point of View; and that they have rather

[d] Strabo, lib. 1. p. 14. Ed. Caſaub. Paris, 1620.

[e] Dionyſius Halicar. lib. 1. § 46. p. 60. Ed. Sylburg. Lipſiæ, 1691.

" wanted a Commentary themſelves, than helped to illuſtrate other Authors." And of this there cannot be given a clearer Evidence, than the Practice of many Hiſtorians of Reputation, who have found it neceſſary to add to their Writings certain Chronological Excerpts, under the Form of a Table, which, though generally very imperfect, are yet a plain Proof of their Sentiments with regard to the Inſufficiency of other Tables of Chronology.

For ſuch is the Table ſubjoined by Dr. *Prideaux* to his Connection of the Old and New Teſtament; ſuch likewiſe is the Table, added by Mr. *Stanley* to his Lives of the Philoſophers; and ſuch alſo are the Chronological Tables which have been lately publiſhed, by way of Supplement to the *Univerſal Hiſtory:* All of which were only intended by their Authors as partial Illuſtrations of theſe particular Works.

The Tables of *Helvicus*, which were publiſhed in 1629, are what approach the neareſt to the Plan of the preſent Work, and have been generally preferred by Men of Learning to all the reſt; becauſe they give a more united View of the collateral Succeſſion of different Kingdoms. Whereas the more modern Tables of *Talent*, *Marſhal*, *Freſnoy*, and thoſe compoſed by an anonymous Author from *Petavius*, have all of them made one great and fundamental Miſtake. For their chief Aim ſeems to have been pointed to the contracting Hiſtory into as little Room as they could, by which they have loſt the true Connection and Union of its Parts, which can never be preſerved, without expanding them, according to *the Series of ſingle Years*; and we therefore venture to affirm, that this Principle is the moſt eſſential in the Texture of a Chronological Table. For it is in Chronology as in Muſic, where the Harmony does not ariſe from any ſingle Note, or from any Number of Notes, but from their being properly proportioned and tuned to each other; where, without the exact Diſpoſition of Time and Place, the true Uniſon of Concert is broken, and the beſt Muſic may become Diſcord.

The Improvements that are to be found in the preſent Tables, and which are not contained in the Plan of *Helvicus*, may be reduced under different Heads.

And firſt, we have added to the Æras of Time, and to the Succeſſion of Kings, *the Principal Annals of Univerſal Hiſtory*. For theſe two firſt will be found to be unintereſting and dry, unleſs accompanied with the great Stream of Remarkable Events. And the fixing of theſe Events to *the Preciſion of Months and Days*, wherever proper Authorities could enable us, will be found to be a very conſiderable Improvement upon the original Plan. For it opens to many other collateral Circumſtances, which ſerve to impreſs them much deeper on the Memory; and it prevents that great Perplexity of confounding Time and Place, which therefore renders a Minuteneſs in theſe Articles of a much greater Importance than is generally obſerved.

The Column of Stateſmen and Warriors, is a Thing hitherto unattempted in any Tables of Chronology, and will be found to give conſiderable Light to the Column of Remarkable Events; becauſe they are the great Actors in the public Tranſactions of the World, and are therefore ſo diſpoſed in the Tables, as to be eaſily connected by the Eye with thoſe Battles and Revolutions in which they were principally concerned. *Monſr le Preſident Henaut* ſeems to have underſtood the great Uſe of this Column, as appears from his excellent *Chronological Abridgment of the Hiſtory of France*, where, at the Beginning of every Reign, he has given us a Liſt of ſuch as were the moſt eminent in that particular Kingdom.

In the Column of Men of Learning and Genius, as well as in that of the Stateſmen and Warriors, we have made one uſeful Improvement; and that is, *the adding to each Perſon, the Year of his Death and his Age*. For by theſe we may determine the Diſtance and Coincidence of a Multitude of other Circumſtances; and the more intimately converſant we are with any Branch of Hiſtory or Learning, we ſhall be the more ſenſible of the Uſefulneſs and Importance of this Addition.

We have likewiſe added many *New Columns*, even in the Succeſſion of ſeveral Kingdoms, which will be diſcovered by a more particular Compariſon of them with thoſe of *Helvicus*, or of any other; and at preſent we ſhall only refer to the Plate, N° 29. where we have given a clear View of all the New Monarchies which ſprung from the Irruption of the Northern Nations. For this is a Part of Hiſtory which is of all others the moſt complicated, and has been hitherto the leaſt underſtood; becauſe the Riſe of new Kingdoms occaſions that Peculiarity of Confuſion in Hiſtorical Matters, which nothing but a Chronological Table can properly clear up. And this ought to be conſidered, too, as a more critical Point of Time, becauſe it is the true Source of all the conſiderable Monarchies now in being; and is therefore the proper Æra of Connection betwixt what is called the Ancient and Modern Hiſtory.

The Engraving of the Tables, has enabled us to render the whole more diſtinct and uſeful than could have been done by common Printing; becauſe the *Fifty faint Hair Lines*, which run acroſs every Plate, contain each of them an united View of the State of the World, for one Year; and lead the Eye, by a plain and clear Direction, from any particular Event, to the Year of the Reign of the different Kings of particular Kingdoms; and ſo onwards, to the Year of the particular Æras correſponding to that Event; or by Reverſe, from the Year of the Æra, and through the intermediate Columns, to the oppoſite Page, where the particular Event is regiſtered.

There are alſo ſubjoined proper Indexes, for the readier finding both the Perſons and the remarkable Events recorded in the Tables, which, we hope, will be found uſeful for many Purpoſes. The firſt, containing the Alphabetical Liſt of the Perſons, has many additional Articles which could not be introduced into the Body of the Tables; ſuch as, the Place of the Birth of the Men of Learning, and ſome Anecdotes of the Species of Learning for which they were each moſt eminent; which tends a little to illuſtrate the Literary Hiſtory of the particular Age in which they lived.

The two Indexes of remarkable Events before and after the Birth of Chriſt, are ſo contrived as to collect all the Articles of the ſame Nature together, and renders it much eaſier to make Compariſons and Concluſions, from Particulars ſcattered in the Tables, at a great Diſtance from each other. It is therefore with this View, that we have added to each Article, not only the N° of the Plate in which it is to be found, but the particular Year whether before or after Chriſt; though that of the Plate would have been otherwiſe ſufficient for the

common Uſes of an Index. And we would for this Reaſon recommend a frequent Peruſal of theſe Indexes for the acquiring a more thorough Knowledge of the Tables, as it more effectually awakens our Curioſity, to examine the Events in the particular Plates; and then it fixes them in our Minds, by many ſtrong and remarkable Connections, which is indeed the great Secret of a local Memory.

For Example, under the Word BATTLE, we have collected all the different Battles, in their proper Order; and we have likewiſe added to moſt of them, the Names of the Victor, and of the Vanquiſhed; which the Brevity eſſential to Chronological Tables would not allow us to mention in its proper Place. In the ſame Manner, we have given a Liſt of all the different WARS, ranged according to the Series of Time; every Thing that regards Aſtronomy, under ASTRONOMICAL OBSERVATIONS; every Thing that regards LAW, under that Title; and ſo on of many others.

And now we have little more to mention upon this Head, but only to ſhow the firſt and ſimpleſt Method of entering the Tables, and acquiring a Knowledge of Chronology, for the Uſe of ſuch as are not accuſtomed to Works of this Sort.

Suppoſe we ſhould be reading any Part of the Roman Hiſtory, for Example, that of Cicero, and ſhould deſire to know the State of the World at that Time. We muſt therefore begin with conſulting the Index of Remarkable Events, before the Birth of Chriſt; and there we ſhall find his Name, accompanied with the following Articles:

Cicero, M. Tullius, born on the 3d of the Nones of Jan; 107 Years before Chriſt, and to be found in the 18th Plate.
——— began to plead in the 26th Year of his Age; 81 Years before Chriſt, to be found in the 19th Plate.
——— makes his Orations againſt Verres, when he was 36 Years old; 70 Years before Chriſt, and in the 19th Plate.
——— detects the Cataline Conſpiracy, in Octo; 63 Years before Chriſt, and in the 19th Plate.
——— baniſhed Rome, by Clodius, Apr. 1st; and retires to Theſſalonica; 58 Years before Chriſt, and in the 19th Plate.
——— is recalled, after a Baniſhment of a Year and 5 Months, in Septr; 57 Years before Chriſt, and in the 19th Plate.
——— is put to death by the IId Triumvirate, Decr 7th Æt. 64. being 43 Years before Chriſt, and in the 20th Plate.

Let us therefore begin with the firſt Article, and examine the State of the World at the Birth of Cicero, which is put down as having happened 107 Years before Chriſt, and to be found in the 18th Plate. We muſt therefore turn over the Plates, till we come to No. 18. in the Title of which is inſcribed, THE IId CENTURY BEFORE CHRIST, PART 2d, and under it are the different Chronological Periods, JULIAN PERIOD—YEARS OF NABONASSAR—OLYMPIADS—YEARS OF ROME, and YEARS BEFORE CHRIST.

Next to theſe are the different Columns, of THE KINGS OF EGYPT—THE KINGS OF SYRIA—THE KINGS OF PERGAMUS—THE KINGS AND HIGH PRIESTS OF THE JEWS; MEN OF LEARNING OR GENIUS; REMARKABLE EVENTS; STATESMEN, WARRIORS, &c.

Now as that of the Years before Chriſt, is the Æra to which the Number 107 refers, we muſt go down that Column of Figures, beginning with 150, till we find 107, which lies in the laſt Diviſion, and 7 Places above the Bottom of the Page; and having once got this Number, we muſt run our Eye acroſs the Plate and along the Hair Line, to the Column of Remarkable Events, where we find this Article thus entered:

Cicero is born on the 3d of the Nones of January, which agreed with the Beginning of November according to the Julian Year.

But ſtill the Year of Rome, and that of the other Æras, might be deſired; to anſwer which, we muſt again carry back our Eye to the Number 107, already found, being the Year before Chriſt, and on the ſame Line on the other Side, we find theſe Numbers:

First 647, which is the Year of Rome, according to Varro;
Next 2, which ſhews it to have been on the 2d Year of the CLXVIIIth Olympiad, which is marked on the Line above;
Then 642, the correſponding Year of Nabonaſſar; and in the firſt Column of all, is
4607, the Year of the Julian Period coinciding with theſe other Æras, and with the Year 107 before Chriſt.

We next come to inquire about the State of the different Kingdoms, in that Year 107; firſt, in the Column of Egypt we find the Figure 10 marked on the Hair Line, which ſhows it to be the 10th Year of the Reign of Ptolemy Lathurus, King of Egypt, with his Mother Cleopatra, ſirnamed the Elder, whoſe Names are marked a little higher, when they began to reign. In the Column of Kings of Syria, we find the Figure 17 marked, which ſhows it to be the 17th Year of Antiochus VIII. ſirnamed Cyprus; and in the ſame Column, on the other Side, though ſtill on the ſame Hair Line, is the Figure 6, as being the 6th Year of the Reign of Antiochus IX. ſirnamed Cyzicenus, King of Cœleſyria, which was Part of Syria, then erected into a ſeparate Kingdom. In the Column of Kings of Pergamus, we find nothing marked, becauſe by caſting our Eye upwards, we may obſerve that Kingdom had been bequeathed to the Romans in the Year 133 before Chriſt. But ſtill along the Hair Line above mentioned, in the Column of High Prieſts and Princes of the Jews, we find it was the 1st Year of Ariſtobulus, ſirnamed Philellen, who had juſt ſucceeded John Hyrcanus, and was himſelf ſucceeded, in the following Year, by Alexander Jannæus.

But we may enquire ſtill farther, what was the Situation of the Roman Republic at that Time? And in order to underſtand this, what we have already mentioned muſt be recollected, That each ſingle Line contains the Events of that ſingle Year to which it correſponds, along the Hair Line, by which we may eaſily diſcover, that the Romans were at that Time engaged in two great Wars, one againſt Jugurtha, and another againſt the Teutones and Cimbri; for the Line immediately below tells us, that Jugurtha was delivered up to Marius, by Bocchus, in the following Year 106, which therefore concluded the five Years of the Jugurthine War; and on the ſecond Line below, which correſponds to the Year before Chriſt 105, Cæpio and Manilius were ignominiouſly defeated by the Teutones, on the Banks of the Rhone, where 80,000 Romans were killed: and by running our Eye upwards, along the Column of Remarkable Events, we may proceed to connect it in our Memory with a Multitude of other Particulars, ſuch as,

That 12 Years before this, Marius, when Tribune, had impriſoned Metellus the Conſul, for oppoſing a Law which he propoſed about the Bridges of Rome.
That 14 Years before this, Caius Gracchus was killed, in attempting an Agrarian Law.
That 26 Years before this, Numantia was deſtroyed by P. C. Scipio, ſirnamed Africanus II.; being the ſame Year in which Pergamus was bequeathed to the Romans; and in which Tiberius Gracchus was killed, in attempting his Agrarian Law.

That 39 Years before this, Carthage and Corinth were both deſtroyed, the firſt by Scipio, and the ſecond by Mummius.

If we deſire to know the State of Learning of that Age, we may find it from the Column of Men of Learning and Genius; for ſuch then were, Caſtor of Rhodes the Chronologer and Hiſtorian;

Menecrates, of Nyſa, the Grammarian[r];
Lucilius, the firſt Roman Satiriſt, who died in 103, Æt. 46;
Apollodorus, of Athens, the Chronologer and Grammarian;
Marcus Antonius ſen[r], the Roman Orator, who died in 87, Æt. 56;
Lucius Craſſus, the Roman Orator, who died in 91, Æt. 49;
Athenion, the Peripatetic Philoſopher, who died about 95;
Artemidorus, of Epheſus, the Geographer.

All of whom were alive and eminent about the Birth of Cicero, though they are placed according to the Times in which they principally flouriſhed, without being ſtrictly confined to a particular Year; for the Period of their flouriſhing is eaſily determined from the Year of their Death, and their Age, which is generally added, when it can be found. And the ſame Rule is obſerved, in diſpoſing the Column of Stateſmen and Warriors, though, in general, they are more directly connected with thoſe remarkable Events which they either occaſioned or conducted. For we find there the following Names:

Caius Marius, the Roman General, who died in 86;
L. Cæcilius Metellus, ſirnamed Dalmaticus;
Ptolemy Appion, King of Cyrené;
Alexander, King of Cyprus, and afterwards of Egypt, who died in 88;
Jugurtha, King of Numidia, who died in 106;
Bocchus, King of Mauritania;
Metellus, ſirnamed Numidicus, who was baniſhed Rome in 100;
Q. Servilius Cæpio, the Roman General, who died about 95;
Antigonus the Jewiſh Prince, who died in 106;
Athenion, the General of the Slaves in Sicily, who died in 102.

Let us take another Part of the Life of Cicero, which is his Suppreſſion of the Cataline Conſpiracy, and obſerve its Connection with the other Parts of the Roman Hiſtory. And here I cannot help obſerving a very common Miſtake, among a Number of People, who conceive, that the Cataline Conſpiracy was prior in Time to the Jugurthine War, becauſe it is printed and placed before it, in Saluſt's Account of both theſe Tranſactions: which is a plain Proof how much a Prejudice, only acquired by Accident, may darken the cleareſt Period of Hiſtory. For the Tables plainly ſhow, that the Jugurthine War began no leſs than 48 Years before the Cataline Conſpiracy.

We have already obſerved, that this Conſpiracy was detected by Cicero in Octo[r], 63 Years before Chriſt, and to be found in the 19[th] Plate.

According then to the Method above mentioned, we find, that the Year 63 before Chriſt, was the 691[st] Year of Rome, the 2[d] Year of the CLXXIX[th] Olympiad, the 686[th] Year of Nabonaſſar, and 4651[st] of the Julian Period; and in the Column of Kings, that it was in the 3[d] Year of Ptolemy Dionyſius, ſirnamed Auletes, King of Egypt. We obſerve in the next Column, that the Kingdom of Syria had been conquered two Years before by Pompey, who reduced it to a Roman Province; and in the Column of Kings of the Jews, that it was the firſt Year of the Reſtoration of Hyrcanus II.; for the Remarkable Events mention, that Jeruſalem was taken by Pompey (that very Year), who reſtored Hyrcanus. The Cataline Conſpiracy appears then to have been in Agitation when Pompey was engaged in this War in Judæa; and when Mithridates killed himſelf, after being defeated by his Son Pharnaces: and we can diſcover from the Tables, that Cicero was then 43 Years old, Cæſar 37, and Pompey 39.

By looking back in the Tables, we obſerve, that it was 16 Years after Sylla had reſigned his Dictatorſhip. In the Tranſaction itſelf, it is mentioned to have been detected by Cicero in October, and defeated by Antony the Conſul in December: ſo that the whole Affair was diſcovered and ſuppreſſed in about two Months. And when we deſcend, in the Column of Events, we find, that it was a little leſs than three Years before the 1[st] Triumvirate of Cæſar, Pompey, and Craſſus, which began in the Autumn of the Year 60 before Chriſt. We find next that Cicero was baniſhed in the Calends of April, of the Year 58, at the very Time that Cæſar began his Expedition againſt Gaul, for he attacked the Helvetii upon the 1[st] Day of April; and this Baniſhment of Cicero appears to have continued one Year and five Months, as he was recalled from his Retirement at Theſſalonica about the Beginning of Sept[r] 57; ſo that his Return was about ſix Years after the Cataline Conſpiracy. The Death of Craſſus was near ten Years after it, being defeated and killed by the Parthians, at Sinnaca in Meſopotamia, on the 9[th] of June 53. Now the Space from this laſt Event, to the Beginning of the Civil War, makes an Interval of about 3 Years and 4 Months, as it broke out on the 22[d] of October 50, according to the Julian Year, though the Romans, from the Miſtake in their Calendar, reckoned it to be the Calends of January of the following Year. And from this Date of Octo[r] 22[d], when the Senate ordered Cæſar to diſband his Army, we find there was an Interval of two Months and four Days to the Siege of Brunduſium, which he began on Dec[r] 26[th]: Pompey ſailed from thence Jan[r] 3[d], 49, and Cæſar entered it on the 4[th], and came to Rome upon the 19[th]; beſieged Marſeilles in the Spring of that Year; defeated Pompey's Lieutenants in Spain in the Summer; returned to Rome in Sept[r], and croſſed the Adriatic into Epirus on the 15[th] of Octo[r]: all of which happened in the Year 49 before Chriſt. The Battle of Pharſalia was fought upon the 20[th] of July following, according to their erroneous Calendar, though really about the 12[th] of the Julian May, being 48 Years before Chriſt, the 706[th] Year of Rome, according to Varro, the 1[st] Year of CLXXXIII[d] Olympiad, the 701[st] Year of Nabonaſſar, and the 4666 Year of the Julian Period. And with regard to the collateral Reigns,

[r] The Title of Grammarian, in thoſe Days, was properly applied to Men eminent, both in Critical Learning, and the different Branches of the Belles Lettres.

it was on the 4th Year of Ptolemy Dionyſius, King of Egypt, with his Siſter Cleopatra, and the 16th of Hyrcanus II. King of the Jews.

And now let us conclude theſe Examples, with the particular Æras and State of the World, at the Birth of our Saviour.

From the Index we are directed to the 20th Plate, where, upon the 5th Year before the Vulgar Æra, we have his Birth marked to have been on Decr 25th, and by running our Eye acroſs the Hair Line, we find it to be the 749th Year of Rome, according to Varro, the 4th Year of the CXCIIId Olympiad, the 744th Year of Nabonaſſar, and the Year 4709 of the Julian Period; it was likewiſe in the 27th Year of the Reign of Auguſtus the Roman Emperor, counting it from his Victory over Antony at Actium, Septr 3d, 31; and it was alſo in the 33d Year of Herod King of the Jews, from which Year of his Reign, as we ſhall ſhew in the Diſſertations, we have been induced to fix the true Birth of Chriſt, as happening 4 Years before the Common Æra.

Then as to the Political State of the World, we find that Auguſtus was at this Time at Peace with all Nations, and continued ſo till the Armenian War, which began 3 Years after, under his Grandſon Caius Cæſar. We may obſerve likewiſe that Auguſtus had then loſt his two Great Miniſters, as Marcus Vipſanius Agrippa died in Campania on the 19th of March, 12, which was above 7 Years and 9 Months before the true Birth of Chriſt, and Mæcenas died in the Month of Auguſt of the Year 8, which was only 3 Years and four Months before that Birth; Tiberius had retired the preceding Year to Rhodes, from a Jealouſy of the two Young Cæſars, who were the Grandſons of Auguſtus, being the Sons of Agrippa, by his Daughter Julia.

As to the State of Learning, we find that the famous Varro had been dead about 23 Years, Cornelius Nepos 20, Virgil 14 Years 3 Months and 3 Days, as he died at Brunduſium, or, as Servius has it, at Tarentum, Septr 22d, 19 Years before the Vulgar Æra; Tibullus was dead likewiſe 14 Years, being on the ſame Year with Virgil, and Horace 3 Years and 28 Days, as he died on the 27th of Novr, in the Year 8, before the Vulgar Æra, having ſurvived his Patron Mæcenas about 3 Months.

Theſe few Examples will perhaps be ſufficient to inſtruct even the Ignorant in the Manner of conſulting the Tables, and we hope that ſuch as are more Learned, will excuſe the Detail, which has been thought neceſſary for that Purpoſe.

Theſe Tables[g] were honoured upon the firſt Publication in 1754, with the Countenance of ſome of the firſt Perſonages in this Country; particularly of the late Earls of Bath and Hardwicke, two of the ableſt and moſt eminent Men which this Kingdom has produced; and therefore the Author hopes he will be excuſed in taking this Opportunity of declaring his private Gratitude and Veneration for two ſuch Characters who are now far removed out of the Reach either of Slander or Adulation.

The Diſſertations upon the difficult Parts of Chronology, which were preparing for the Preſs at the Time of the firſt Edition of theſe Tables, have been long interrupted by a Duty to which the Author was called upon ſoon after to diſcharge, which was the Attendance on his late Royal Highneſs The Duke of York. And as this, for the Courſe of near Eleven Years, engroſſed without any Interruption all his Thoughts and Leiſure, it is therefore the only Apology he can give for having ſo long delayed the Publication of that Part of his Work.

How much that excellent young Prince deſerved of the World and of his Country, was evident, and will be long remembered, by every one who had the Honour of being near his Perſon, or to whom he was at all known. For, amidſt the Gaiety of Youth, enlivened by a great conſtitutional Vivacity, few Perſonages of his high Rank had a more ſteady Attention to Buſineſs, or a firmer Attachment to Men whoſe Characters he approved.

To Science in particular he was one of the warmeſt Friends, and took all Opportunities of honouring and promoting every uſeful or ingenious Improvement in Knowledge.

Flattered, unhappily, with an Idea of having a Conſtitution equal to every Fatigue, and poſſeſſed of a Flow of natural Chearfulneſs and animal Spirits which neither travelling nor watching ſeemed to leſſen, he fell a Victim to this ill-grounded Prepoſſeſſion. For the too intenſe Exerciſe he took in a ſultry Seaſon and Climate, brought upon him the Attack of a Putrid Fever, againſt which he was perhaps leſs fortified than moſt other Perſons from his great Temperance in Wine; ſo that its Violence ſoon put a Period to his Life in the Bloom and Vigour of Youth, and when he was juſt entering with uncommon Sedulity into the Career of publick Buſineſs, where his Abilities would have rendered him of the greateſt Service to the King his Royal Brother, and to his native Country. Even in his laſt Moments he ſhewed the ſtrongeſt Proofs of a Fortitude and Reſignation, as well as a Preſence of Mind which was natural and unaffected, and would have diſtinguiſhed his Character had he been born even in the loweſt Rank of human Life.

It was in compliance with his Royal Highneſs's Deſire that I have endeavoured to improve theſe Tables of Chronology, by adding *fourteen Maps*, Part of them containing *the ancient* and Part of them *the modern Geography*, which are ſo diſpoſed in different Places of the Tables, as to illuſtrate the Times and Periods when the

[g] As the little Ornament which is given in the Title Page, has pleaſed ſome good Judges, they have deſired a particular Account of the Deſign:

The Story then, is that of Herodotus reading his Hiſtory at the Olympick Games, and is founded on a Paſſage of Lucian, in his Piece called Herodotus, or Aetion, and at the Recital of which, Thucidides, then a Boy, is ſaid to have cried with Tears of Admiration, as taken notice of by Marcellinus in his Life of that Hiſtorian.

The Figure of Herodotus will be eaſily known, as being the Principal in the Piece, and having a Scroll in his Left Hand, on which may be read, ΞΕΡΞΟΥ ΚΑΤΑΒΑΣΙΣ, The Expedition of Xerxes. For as this was the moſt violent and dangerous Attack upon the general Liberties of Greece, and occaſioned the burning of all their Temples by the Perſians, which were ever afterwards left in Ruins, as a publick Monument of their Barbarity; it was therefore attended with all the Circumſtances which could awaken their Enthuſiaſm and their Horror. And we are directed to fix upon this Subject the rather, becauſe Lucian mentions it, as the Part of the Hiſtory which had affected them the moſt. "For when the Time, ſay he, of the Great Olympick "Games drew near, Herodotus found this to be the very Opportunity he ſo much deſired, as it aſſembled together all the moſt eminent Men of Greece. He "entered therefore the ΟΠΙΣΘΟΔΟΜΟΣ, and preſented himſelf, not as a Spectator, but as one ready to contend in the Games; and when he recited his "Hiſtory, he ſo enchanted every one preſent, that they diſtinguiſhed his different Books, by way of Title, with the Names of the Muſes, as being alſo "Nine in Number. And he became at once more univerſally known than the Olympick Conquerors themſelves; for there was none but had heard of the

the Countries delineated in each Map were the principal Scenes of Action. For in his Royal Highneſs's Application to the Peruſal of the Political Hiſtory of the World in its various Branches, to which indeed all his Mornings were generally devoted, he found it of great Advantage, for the clearer underſtanding of any Tranſaction or Event, to have the Country and the Period of Time placed before him in one View, as the proper Companions to each other. And as they have been privately uſed in this Manner for ſome Years paſt, they are now publiſhed to the World, with the Hopes of their being found of Service to ſuch who may employ any of their leiſure Hours in the Study either of ancient or modern Hiſtory.

A few of the Maps have been copied from M. *Deliſle* and M. *Robert*, but by much the greateſt Number of them were drawn under the Author's immediate Inſpection by M. *De Larochette*, from the lateſt and moſt accurate Diſcoveries and Obſervations. And that the Errors in other Maps, and the Times when they were rectified, might be the eaſier traced and known, *a Diſſertation* is prefixed to the whole *on the Riſe and Progreſs of Geography*, which though far from being ſo complete as the Author could have wiſhed, may ſtill be of ſome uſe to many who have been hitherto leſs converſant in this Branch of Science.

" Name of Herodotus; either ſuch as were preſent themſelves at Olympia, or had enquired of ſuch as had been there. And wherever he appeared, they " pointed him out, ſaying, " THIS IS THAT HERODOTUS WHO DESCRIBED THE PERSIAN BATTLES, IN THE IONIAN DIALECT, AND WHO SO " NOBLY CELEBRATED OUR VICTORIES*."

His Diſcourſe is properly addreſſed to the Olympick Judges, who are raiſed above the reſt upon a particular Seat or Bench, with a ſemicircular Table before them, on which there lie, as THE PROPER INSIGNIA, *the Palm Branch and the three Olive Crowns.* We have placed only ſix Judges on the Bench, though it appears from Pauſanias †, that there were ten Judges in the Days of HERODOTUS; becauſe it would have crowded that Part of the Piece too much, if we had taken them all in: So that we may ſuppoſe, four of them might be abſent by reaſon of Sickneſs or other Buſineſs.

Upon the Front of the Bench, we have put a plain Inſcription, ſimilar to many mentioned by PAUSANIAS, ſignifying that it was THE SEAT OF THE OLYMPICK JUDGES, ΕΛΛΑΝΟΔΙΚΩΝ ΟΛΥΜΠΙΚΩΝ ΕΔΡΑ, and we have placed this ἕδρα or Seat, near the Goal of the Stadium, agreeable to a Paſſage in Pauſanias, p. 180. Ὡς ἐφεστήκοιεν τρεῖς, ἐπὶ τὸ ὁρίμα τῷ πέρατι, Ἑλλανοδίκαι.

The Stadium, or circular Range of Trees, round which the Races were made, appear in the Picture immediately behind HERODOTUS and the Crowd ‡.

The Boy ſtanding juſt under the Right Arm of Herodotus, is intended for the Figure of Thucidides, who is ſuppoſed to be about fourteen Years of Age; there is a Tear juſt trickling down his Left Cheek, which, joined to that Attention with which he gazed upon Herodotus, ſhews that he cried rather from Admiration than from Grief; as if the firſt Sparks of his Emulation, as an Hiſtorian, were kindled from what he then heard. For Marcellinus mentions, that Herodotus took particular Notice of his Behaviour, and made the following Obſervation to his Father, " Thy Son, O Olorus! has a ſtrong Impulſe " in his Nature to Science." Which is rather more expreſſive in the Original, Ὦ Ολορε, ὀργὴ ἡ φύσις τὸ υἱὸς ζε πρὸς μαθήματα ‖.

The round Sphere or Globe, which is raiſed upon the Dorick Pillar in the Middle of the Picture, repreſents the famous Olympick Diſk, which has the Word ΕΚΕΧΕΙΡΙΑ inſcribed upon it; for Pauſanias tells us, lib. v. p. 168, that the Eleans uſed this Diſk for proclaiming and publiſhing PEACE to all Greece, during the Celebration of the Olympick Games; which ἐκεχειρία, ſays he, was not wrote upon the Diſk in ſtreight Lines, but round it, in a circular Manner. This Inſcription upon the Diſk, conſiſted, probably, of the two Reſponſes of the Oracle at Delphi, which Syncellus has preſerved to us in his Chronographia, p. 196, Ed. Goar. Paris 1652, and is copied from him by Scaliger, in his Excerpts of Euſebius's Chronicon, p. 37, and which we ſhall give below for the Amuſement of the Learned §. Upon the lower Part of the Diſk, the Names of Iphitus and Lycurgus were inſcribed, which is mentioned by Plutarch in the Beginning of his Life of Lycurgus, as a Quotation from Ariſtotle; and it is confirmed likewiſe by what Pauſanias ſays of their being cotemporary, lib. v. p. 150, which Syncellus particularly takes notice of in his Quotation from Ariſtodemus, p. 196.

The Back Ground of the Picture, behind the Judges, repreſents what Pauſanias calls, *The Treaſury of Altis*, which was a large Tract of Olympia, containing ſome of the moſt magnificent Antiquities of Greece; for it was crowded with *Altars and Temples* to all the Heathen Deities, which had been erected there by different States and Cities at different Times, as Memorials of Battles and Conqueſts, of which the moſt remarkable was that dedicated to the Olympian Jupiter, by the Eleans, out of the Spoils of Piſa, when they deſtroyed that City; in which Temple was enthroned the Statue of Jupiter, the Maſter-piece of Phidias, and made of ſolid Gold and Ivory. This Treaſury contained likewiſe many *Obeliſks*, which were the Monuments of Peace betwixt different Nations, the Treaties being inſcribed upon them at full Length; ſuch as the thirty Years Truce between the Athenians and Lacedemonians, which was wrote upon a Column of Braſs; and there ſtood alſo, ſcattered about, a great Number of *Statues* of their Gods, Heroes, and Olympick Victors. But we ſhall inſiſt no farther upon theſe Particulars at preſent, and therefore we beg leave to cloſe this Account, by referring the more curious Reader to *the Fifth and Sixth Books of Pauſanias*, where he will find Materials for much Speculation, in what regards either the Antiquity or Magnificence of the fine Arts.

---

* Ἐνίσαλαι ἂν Ὀλύμπια τὰ μεγάλα καὶ ὁ Ἡρόδοτος, τότ' ἐκεῖνο ἥκειν οἱ νομίσας τὸν καιρὸν, ἃ μάλιστα ἐγλίχετο, πληθυσαν τηρήσας τὴν πανήγυριν, ἀπανιοχόθεν ἤδη τῶν ἀρίστων ζυνειλεγμένον, παρελθὼν εἰς τὸν ὀπισθόδομον, ἀ Θεαΐην, ἀλλ' ἀγωνιστὴν Ὀλυμπίων παρεικεν ἑαυτὸν, ᾄδων τὰς ἱστορίας, καὶ κηλῶν τὰς παρόντας, ἄχρι τε καὶ Μούσας κληθῆναι τὰς βίβλους αὐτὰ, ἐννέα καὶ αὐτὰς ὕσας. ἤδη δὲ ἅπαντες αὐτὸν ἤδεσαν πολὺ μᾶλλον, ἢ τὰς Ὀλυμπιονίκας αὐτός. Καὶ δὴ ἔστιν ὅστις ἀνήκοος ἦν τὰ Ἡροδότα ὀνόμαι, οἱ μὲν, αὐτοὶ ακουσαντες ἐν Ὀλυμπία, οἱ δὲ, ἐκ τῶν τῆς πανηγύρεως ἀκουόντων πυνθανόμενοι, καὶ εἴ πα γε φανείη μονον, ἐδείκνυτο αὖ τῷ δακτύλῳ, ΟΥΤΟΣ ΕΚΕΙΝΟΣ ΗΡΟΔΟΤΟΣ ΕΣΤΙΝ, Ὁ ΤΑΣ ΜΑΧΑΣ ΤΑΣ ΠΕΡΣΙΚΑΣ ΙΑΣΤΙ ΕΓΓΕΓΡΑΦΩΣ, Ὁ ΤΑΣ ΝΙΚΑΣ ΗΜΩΝ ΥΜΝΗΣΑΣ. Luciani Opera. Ed. Bourdelot. p. 327, 328. Paris 1615.

† The Olympick Judges were increaſed at different Times, and their Number was often varied, according to Pauſanias, lib. v. p. 156. Wechel. Francof. 1583, who gives the following Account of them.

Iphitus preſided alone at his firſt Celebration of the Olympick Games, and this Honour was continued to the Poſterity of Oxylus, who all preſided ſingly till the L[th] Olympiad; but, on this Olympiad *two Judges* were choſen by Lot, from the City of Elis, which Number were thus continued for many Years, till, in the twenty-fifth Olympiad after this, which anſwers to the LXXV[th] Olympiad, when the Number of the ΗΛΛΑΝΟΔΙΚΑΙ, or *Olympick Judges*, was increaſed to nine, *three* of which were appointed for the Horſe Races, *three* for the Pentathlon, or five united Games, and the reſt for the remaining Games; and, in the LXXVII[th] Olympiad, a *tenth* Judge was added. In the CIII[d] Olympiad, the Eleans, having modelled their Government according to XII Tribes, or Diviſions, each Tribe ſent a particular Judge to the Olympick Games; but their War with the Arcadians following ſoon after, they loſt great Part of their Territory, and their Tribes were contracted to *eight*; therefore only *eight* Olympick Judges were choſen for the CIV[th] Olympiad; but in the CVIII[th] Olympiad, their Number was again encreaſed to ten, and continued ſo till the Days of Pauſanias.

From this Account, it appears, that there were ten Judges in the Days of Herodotus, as he flouriſhed about the LXXXIII[d] Olympiad.

‡ The naked Situation of the Plains of Olympia, before the planting of the Stadium by Hercules, and the Manner how he firſt diſcovered the beautiful Olive Trees, with which he encloſed it, is excellently deſcribed by Pindar, in his Third Olympick Ode, to which Mr. Weſt has done great Juſtice in his Tranſlation. See likewiſe Pauſanias, lib. v. p. 154.

‖ See Marcellinus's Life of Thucidides, prefixed to Henry Stephens's Edition of that Hiſtorian.

§ Ὦ Πελοποννήσε ναέται περιδώμι' ἴονλες
Θύετε καὶ πείθεσθε τὰ καὶ μαντεις ἐνεπωσιν
Ηλεῖοι πρόπολοι πατέρων νόμον ἰθύνονλες.

The Oracle addreſſed to the Eleans was as follows,

Τὴν αὐτῶν ῥύεσθε παλραν, πολέμε δ' ἀπεχεσθε
Κοινοδίκε φιλίης ἡγεμένοι Ἕλλησεσσι
Εὖτ' ἂν ἐνὶ τριόδοις ἔλθῃ φιλόφρων ἐνιαυτός.
